

A page from my note book

February 20/79

Dear Susan,

Here it is half past February - as one gets older time flies faster.

You have no idea how thrilled I was to receive the family photo - I am very pleased, Susan, and thank you.

I received your letter & your address of Syd. I have since dropped a note to him and if he wishes he can carry on a correspondence. Your Mom mentioned that you have been working on the name Annie Cibular. I may have told you what I remember of her. She was the sister to a Mrs. Sayers. My mother (G.M.H.) used to remark on how different they were. Mrs. Sayers was very clean and Mrs. Cibular, filthy. Mrs. Cibular's husband died of an auto accident, it was a strange death - as the auto came up on the sidewalk & hit him.

Later Mrs. Cibular married a man called Nisson (Nissonbaum) and she lived with his daughter in a big old house. I can recall visiting her there as she lay dying.

I believe Mrs. Cibular had twins - one girl lived. Her name was Theresa & she wed an Australian named Harold. The last my mother heard of her was when an Australian quack doctor was 'curing' cancer and a world wide advertisement gave Theresa's address for anyone traveling to Australia could stay there. My neighbor did this & my mother went to see her. My mother claimed she 'caught' cancer from leaning over the woman as the woman lay in bed. My mother wanted news of Theresa. I have snaps of Theresa if you would

Good For you more, sorry to

like to have one.

Robert Lyon of California is Yama's cousin & he saw Dr. Spitz when he was in Britain. Every year Robert & his wife Sadie travel many places around the world. He is an official of the Rico Chapter, Council of British Secretaries - Los Angeles (Jewish) Social Club. He has sisters & a large family membership living in Los Angeles. One of his sisters went around with Yama.

Robert is very interested in the job you are doing - tracing the family tree - we would like to be on your family tree mailing list & he will pass on all news to the family.

Yr. Robert Lyon.

1622 Beilss Rd.,

Los Angeles, California, U.S.A. 90035

And before I hit the mail box with this note, I was thinking it would be a good idea if this tracing the family tree could be a joint effort on my part. How about me tracing my father's tree? If he is not on your later agenda let me know & I will start - but first you'll have to tell me how to go about tracing the tree. I have my father's birth certificate - I don't know who the Hoods are - Browns are related to my father's mother. Don't get mixed up by this. But I would like to trace my Dad's tree, & keep you posted as you are doing with me on Yama's tree.

Love.

me. Aunt Peg & x
