Dear Toni Armano:

Although the statement of work page suggests an analysis of data, it is important to state that this data is being collected and analyzed very informally, with issues being more clearly identified, and a summary of views of individuals and organizations provided with recommendations for improvement. As well, the review of provincial policies will not be comprehensive.

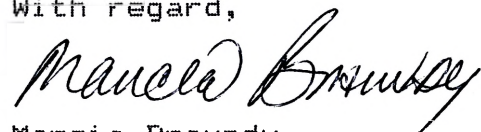

I am assuming that I must submit an invoice with the signing of this contract based on page 11.1.b in the amount of \$2550.00, which is 15% of the contract upon signing as per page 10.

The following page is the invoice, and any expediting you can do for prompt payment would be greatly appreciated. 30 days seems a long time at this point.

Thank you for your work in setting this up, and I am glad I was able to have some influence in getting the extension for everyone on this worthwhile and timely project.

Feel free to contact me with any comments or information you feel would be of value to this work.

With regard,

Marcia Braundy
Journeywomen Ventures Ltd.
