The School Workplace
Apprenticeship Program

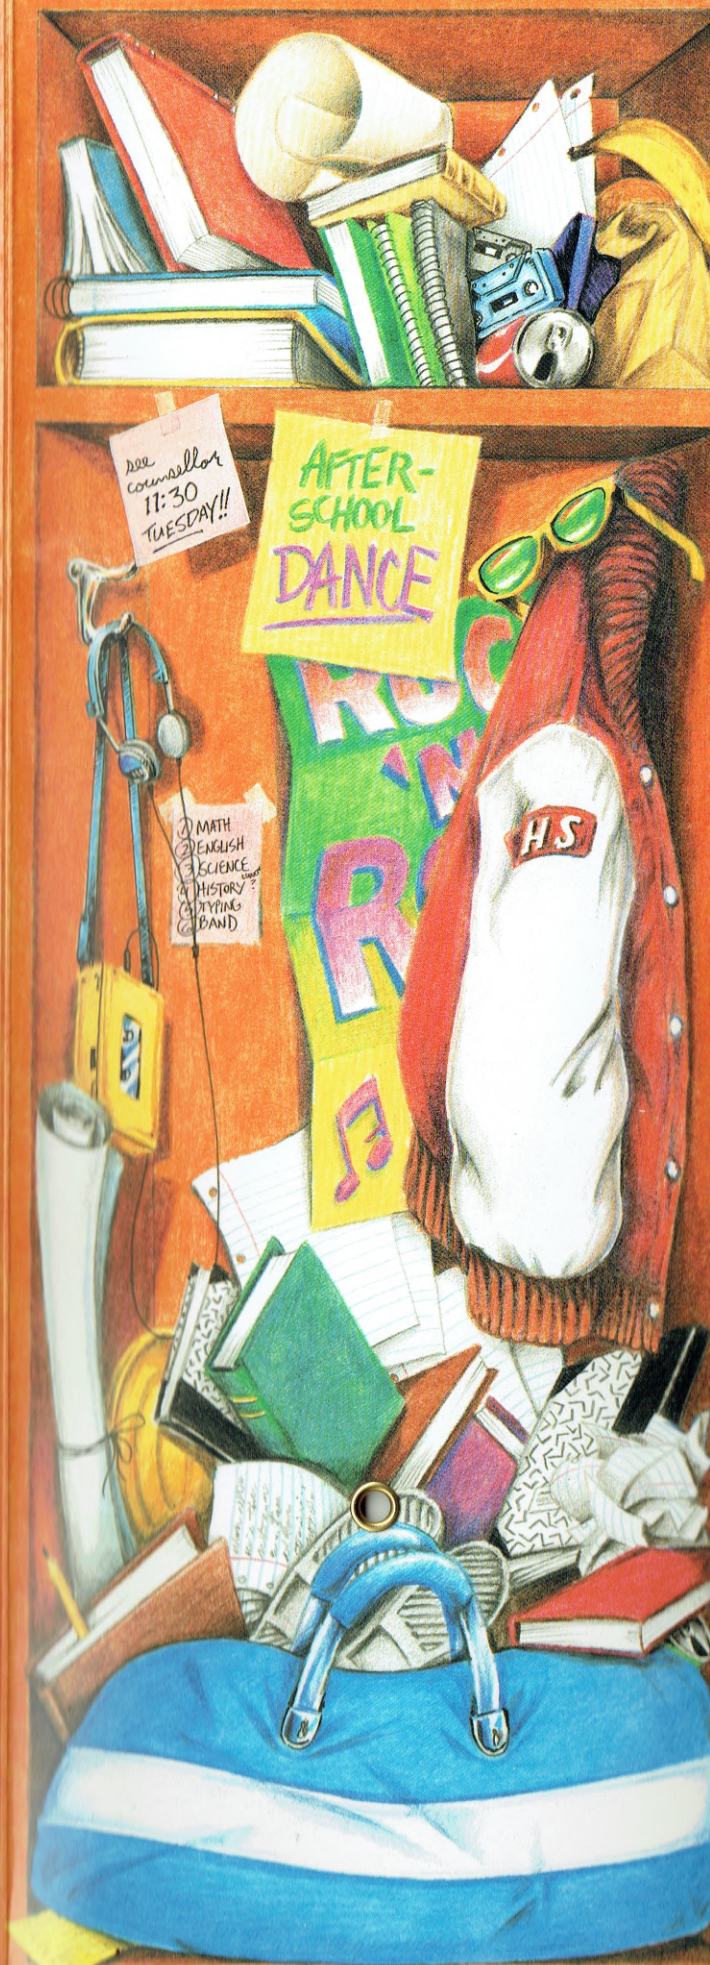

**What are
three
things
you need
to survive
and succeed
in the world?**

Skills
will get you
a job
with a future.

Education
a high school diploma
at the very least,
will make you
trainable **and** promotable.

Money
will give you
independence.

The "Right Combination"

- Skills
- A high school education
- Money in your pocket
- ... all at the same time.

The School Workplace Apprenticeship Program lets you go to school part time while you work part time as a registered apprentice. After you finish high school, you carry on to complete your apprenticeship requirements.

The "Right Decision"

If you decide to pursue an apprenticeship program, you will learn practical skills that will launch your career. If you start the program and then change your career plans, you will still have obtained some useful skills. Either way, you win.

What Qualifications Do I Need?

- Grade 10
- At least 16 years old
- Commitment
- Responsibility

For More Information

See your guidance counsellor or technical director for more information on:

- The School Workplace Apprenticeship Program
- Apprenticeship Training
- Other apprenticeship opportunities
